Definitions of the Five Standards for Vermont Educators:

Learning (content expertise): Educator continues to acquire new learning in his/her content area. New learning is reflected in professional practice.

Professional Knowledge (methodology and pedagogy): Educator continues to acquire knowledge in best practices in teaching and the learning process, so as to improve learning opportunities for all students.

Collegueship: Educator works collaboratively with colleagues at the local, state and/or national levels to improve student learning.

Advocacy: Educator engages families and communities in partnerships to promote student learning.
